

Certificate

Vinyl compounds for PVC window profiles

Reference: EH 843/W012

Code: 377

The CSTB hereby certifies that the above-mentioned vinyl compounds comply with the characteristics described in the "vinyl compounds and their manufacture for PVC window profiles" (QB 34) certification reference system in force, following an assessment performed according to the inspection procedure set out in this reference system.

This decision certifies the vinyl compounds alone. It can be supplemented with the vinyl compounds manufacturing certificate issued for each production plant.

By virtue of the present decision, the CSTB grants:

The Company **BENVIC SAS**
57 avenue de Tavaux
F 21800 CHEVIGNY SAINT SAUVEUR

the right to use the QB 34 mark for the vinyl compounds covered under this decision, throughout its period of validity and under the conditions stipulated by the general requirements of the QB mark and the above-mentioned reference system.

003/377_VA

Decision of admission no. 002/377 dated April 16, 2019

Decision of extension no. 003/377 dated March 30, 2020

This valid certificate may be consulted on the following Web Site: <http://evaluation.cstb.fr> to check its validity.

CERTIFIED CHARACTERISTICS PERTAINING TO THE VINYL COMPOUNDS FOR THE MANUFACTURE OF PVC WINDOW PROFILES

With a requirement level higher than the level referred to in Standard NF EN 12608.1:

Identification (material traceability)

Durability: artificial ageing confirmed by natural ageing

This certificate comprises 1 page.
